### **DETAILED ACTION**

Due to the complex nature of the claims, no request for an oral election is being made. Please see MPEP 812.01.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to a use of an mGluR5 antagonist for the treatment of anxiety and pharmaceutical compositions, classified in class 514, subclass 332.
- II. Claims 5-30, drawn to methods of treating pain by administering an mGluR antagonist and pharmaceutical compositions, classified in class 514, subclass 332.

The inventions are distinct, each from the other because of the following reasons:

Groups I and II are drawn to two different methods. Group I requires treatment of anxiety whereas Group II requires treatment of pain. Both methods require different steps, have different modes of operation and have different effects. The search for one is not required for the other.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
